

The ECHO Model

Sara Zoran MS CGC

Extension for Community Healthcare Outcomes (ECHO)

- ECHO Model® is an evidenced-based way of learning, inspired by the way clinicians learn from medical rounds during residencies. The ECHO Model® **builds community and capacity.**
- “Hub and Spokes” model
- ECHO Team
 - Hub Content Experts.
 - Spokes Participant cohort
 - ⑩ Coordination
 - Tech

- All Teach: All Learn
- Foster learning and networking between institutions and providers
- Please attend sessions, even those where you feel you know a great deal about the topic. This is an all teach: all learn model.

Typical ECHO Session Agenda

- **Welcome & Announcements (3min)**
- **Knowledge Burst (27 min)**
 - Presenter is part of "Hub"(12 min)
